

List of doctors and Hospitals in Dushanbe Consular District (last updated 02/20/2007)

The following doctors have indicated to the U.S. Embassy that they are willing to treat foreigners. This list should in no way be construed as a recommendation. The choice of a doctor is a personal matter; the U.S. Embassy has no way to verify the professional standing or competence of the persons listed here and is not in a position to make specific recommendations. The U.S. Embassy assumes no responsibility for the professional ability of the persons whose names appear on this list. The list is provided for informational purposes only.

Some of the specialists on this list don't speak English and the help of an interpreter may be required. In addition, it may be better to send someone directly to the hospital rather than make an appointment.

Important! American Citizens living or traveling abroad should be sure that they have adequate medical insurance that will cover emergency expenses such as a medical evacuation out of Tajikistan. When making a decision regarding health insurance, Americans should consider that doctors and hospitals in Tajikistan require cash payment in advance before providing service and that a medical evacuation to the United States may cost over \$50,000. Due to long distances and poor infrastructure, medical evacuations from Tajikistan may take as long as 24 hours. Uninsured travelers who require medical care overseas often face extreme difficulties. The quality of the local medical infrastructure is below Western standards, with a shortage of basic medical supplies. Elderly travelers and those with pre-existing health problems may be at particular risk due to inadequate medical facilities. The doctors indicated in the list below can only do what is possible under the circumstances.

Speak English:

#	Name of the doctor	Specialist	Work address	Home address
1	Prospekt Medical Clinic Dr. Hamedanizadeh, AmirKambiz, MD. MPH.
